

## Pharmacy Services Compensation Update

The new four-year Memorandum of Understanding (MOU) between the Alberta government and the Alberta Pharmacists' Association supports the expanding role of pharmacists in communities across Alberta. This MOU provides for the Compensation Plan for Pharmacy Services to be updated on April 1, 2014. Important changes were agreed to that will enhance accessibility for Albertans to primary health care services provided by pharmacists.

The April 1, 2014 Compensation Plan for Pharmacy Services has been posted online at <http://www.health.alberta.ca/professionals/fees.html>. The Alberta Pharmacists' Association web site at <http://www.rxa.ca> will also contain a link to the Compensation Plan.

A high-level description of the new pharmacy services, amendments to existing pharmacy services and administrative rule changes follows. Please refer to the Compensation Plan for Pharmacy Services for details.

### New Pharmacy Services

**Tobacco Cessation Services** — An SMMA Tobacco Cessation Initial Assessment may be claimed for a resident using a tobacco product daily and willing to receive Tobacco Cessation Services. Up to four SMMA Tobacco Cessation Follow-up Assessments may be claimed during the 365 day period after the SMMA Tobacco Cessation Initial Assessment. An SMMA Tobacco Cessation Initial Assessment and the related SMMA Tobacco Cessation Follow-up Assessments may be claimed even though the resident has already received a CACP, SMMA or Diabetes SMMA in the previous 365 days. Tobacco Cessation Services are defined as the provision by a clinical pharmacist of evidence-based tobacco cessation support and counselling including pharmacotherapy support. Use ICD-9 diagnosis code 305.1 for Tobacco Use.

**SMMA for Albertans with Diabetes Mellitus** — An SMMA Diabetes Initial Assessment and SMMA Diabetes Follow-up Assessments may be claimed for Albertans with diabetes mellitus taking at least one Schedule 1 drug or insulin.

**Discontinuation of a Prescribed Schedule 1 Drug** — An Assessment for an Adaptation of a Prescription may be billed when adaptation results in the discontinuation of a prescribed Schedule 1 drug for a resident if the prescribed drug confers little or no benefit and/or excessive risk of harm.

### Amended Pharmacy Services

**Section 3 Assessments** — The Section 3 Assessments (Prescription Renewal, Adaptation of a Prescription, Administration of a Product by Injection, Prescribing at Initial Access or to Manage Ongoing Therapy, Prescribing in an Emergency, Refusal to Fill a Prescription, Trial Prescription, Administration of a Publicly Funded Vaccine), may be claimed during the 365 day period after an initial assessment (CACP, SMMA, diabetes SMMA or tobacco cessation SMMA).

**Two injections per Day** — A maximum of two Assessments for the Administration of a Product by Injection may be billed per day per resident. Assessments for the Administration of a Product by Injection are excluded from the one fee per day limitation.

**Updated CACPs and SMMA**s — Updated CACPs and SMMA's no longer require the signature of the resident.

**Administration of Publicly Funded Vaccines** — Payment for Assessments for the Administration of a Publicly Funded Vaccine has been transferred from the Alberta Public Health Activities Program to the Compensation Plan for Pharmacy Services. Assessments for the Administration of a Publicly Funded Vaccine are excluded from the one fee per day limitation. Further details will be provided in advance of the next influenza season.

**Definition of Obesity** — The definition of obesity has been changed to a Body Mass Index (BMI) of “30 or more.”

**Definition of Mental Disorders** — The definition of mental disorders has been changed to ICD-9 diagnosis codes 290 to 319, excluding codes 303, 304 and 305.1.

## **Administrative Rule Changes**

**Four-Year Term** — The term of the Compensation Plan is April 1, 2014 to March 31, 2018, to align with the term of the new four-year MOU signed by the Alberta government and the Alberta Pharmacists’ Association.

**Alberta Blue Cross Pharmaceutical Services Provider Agreement** – The Compensation Plan has been amended to use the new name of the new agreement between Alberta Blue Cross and a pharmaceutical services provider.

**365 Day Rule** — The concept of “service year” has been replaced with “per 365 day period,” “next 365 days” or “previous 365 days,” as appropriate. This is known colloquially as the “365 day rule.” The initial assessments (CACP, SMMA, diabetes SMMA and tobacco cessation SMMA) may be billed once per 365 day period. The related Follow-up Assessments may be billed for the purpose of updating the initial assessment which has been completed within the previous 365 days.

**\$0 Claim for CACP or SMMA Funded by Alberta Health Services (AHS)**—Where AHS has paid a clinical pharmacist for a CACP or SMMA similar in form and effect as a CACP or SMMA provided under the Compensation Plan, a fee of \$0 may be claimed. This will permit Follow-up Assessments to be claimed for the purpose of updating the AHS-funded CACP or SMMA which has been completed within the previous 365 days.

**Substitute Decision Maker** — The Compensation Plan is intended to be a fee schedule. Clinical pharmacists are able to look to the Alberta College of Pharmacists for guidance with respect to provision of pharmacy services to residents without sufficient mental capacity to give consent. As such, reference to “Resident’s Personal Representative” has been removed from the Compensation Plan and replaced with Section 2(16) on consent and use of a substitute decision maker.

Please refer to the attached Pharmacy Services Price List, with PINs, Special Service Codes and Intervention Codes.
