

ONLINE PHARMACY LOCATOR TOOL – SITE INFORMATION

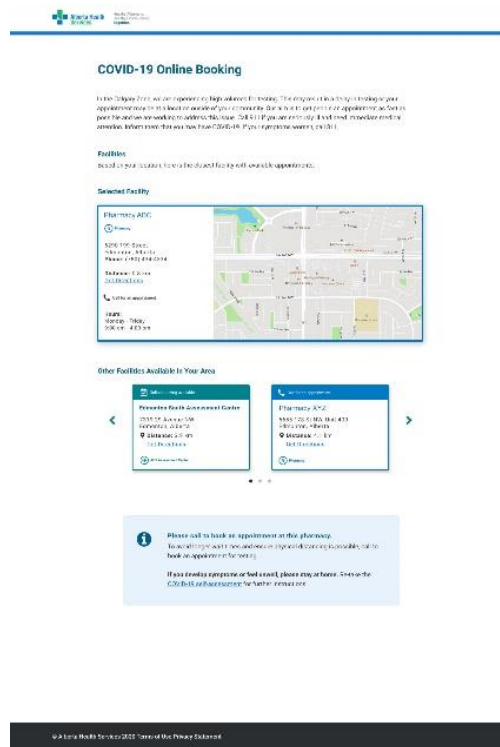

September 14, 2020

Online Pharmacy Locator addition to the AHS Online COVID-19 Self-Assessment Tool for Albertans

Pharmacies participating in the Pharmacy Based Asymptomatic COVID-19 Testing Program will now be able to have their Google Map location integrated into the AHS Online COVID-19 Self-Assessment Tool for individuals who screen as asymptomatic.

Patients will be presented with options for asymptomatic testing including pharmacies within a 75 km radius. The listing will also provide a Google Map of the pharmacy locations offering asymptomatic testing.

This functionality is additional to the list of sites posted on the Alberta Blue Cross website.

ONLINE PHARMACY LOCATOR TOOL – SITE INFORMATION

Pharmacies wishing to have their information included in the online locator tool should complete the attached form and return it by email to the addresses indicated.

The store location information will then be uploaded to the online pharmacy locator tool with the next update. Updates are anticipated to occur every few days.

Full Store Name and Location Descriptions Example : XYZ Pharmacy - Neighborhood	Pharmacy Hours of Operation Example: Mon-Fri: 9:00 AM-4:00 PM; Sat-Sun: Closed	Pharmacy Phone Number	City	Street Address as it appears in Google Maps	Google Link (URL Location Link as per browser address from Google Maps) *

Please email this completed form for entry into the online locator tool to

Michael.Topham@albertahealthservices.ca

Kass.Rafih@albertahealthservices.ca

*The URL for the pharmacy Google Map location can be found as follows:

1. Enter the name of your pharmacy in Google Maps
2. Click on your pharmacy location on the map so it is highlighted.
3. From the browser address bar, copy and paste the full URL into this form (include all characters in the address bar).

See example ...
