

Pharmacy Benefact

A BULLETIN FOR PHARMACY SERVICE PROVIDERS FROM ALBERTA BLUE CROSS

Number 725 • February 28, 2018

Special announcement

The Alberta government and the Alberta Pharmacists' Association have arrived at a new funding framework that will reduce the rate of growth on pharmacy spending—in the shared interest of ensuring the continued sustainability of the Alberta government-sponsored drug programs. This framework is the first of its kind for pharmacy funding in Alberta. Alberta Blue Cross was part of these discussions as the funding framework impacts the *Alberta Blue Cross Pharmaceutical Services Provider Agreement*.

Through the framework, pharmacy compensation will be adjusted to provide an estimated \$150 million in cost avoidance for the Alberta government over the next two years. The changes will also provide savings on out-of-pocket costs for Albertans in some instances, by reducing dispensing fees and by limiting recurring dispensing fees. The framework recognizes the critical role that pharmacists play in keeping Alberta's health care system financially sustainable and comes on the heels of collaboration between the Government of Alberta and other health professions including doctors, nurses and dentists to control costs.

How the framework affects the *Alberta Blue Cross Pharmaceutical Services Provider Agreement*

The new framework is facilitated through the *Alberta Blue Cross Pharmaceutical Services Provider Agreement* that each individual pharmacy signs with Alberta Blue Cross. Due to the changes in the funding framework, the existing *Alberta Blue Cross Pharmaceutical Services Provider Agreement*, which expires March 31, 2018, will be extended to 11:59 p.m. May 16, 2018, at which time it will be terminated. A new agreement will be issued in March and will become effective May 17, 2018. You can find a reference copy of the new agreement in the pharmacy provider section of our website.

Some specifics of the new funding framework

Change	Current	Effective May 17, 2018
The dispensing fee will be reduced.*	\$12.30	\$12.15

The fee for administering a publicly funded vaccine will be reduced.	\$20	\$13
New services will be added—pharmacists will have the authority to administer more publicly funded vaccines.	n/a	\$13 Phased in expansion planned

*Applies to all Alberta Blue Cross plan sponsors.

**Follow up SMMA assessments for tobacco cessation services remains unchanged at only four after each SMMA.

The new funding framework will be in place until March 31, 2020.

Holdback

Starting April 1, 2019, at least 10 per cent of government payments to pharmacies (excluding the cost of drug products) will be withheld every two weeks to be used as needed to address any budget shortfall. While the percentage can increase if required to meet budget targets, where expenditures are less than budget, holdback funds will be re-distributed back to pharmacies.

More information to come

Alberta Blue Cross appreciates the close working relationship we have with the pharmacy community and are committed to sharing information about the new funding framework and how it impacts our partnership. Please anticipate more Benefacts in the coming weeks that further outline specific details.
