

April 2015

Additional resources now available on the Alberta Blue Cross web site

Alberta Blue Cross remains committed to providing you and your staff the tools you need to support your direct-bill claims for Alberta Blue Cross plan members. As part of that commitment, Alberta Blue Cross is pleased to announce updates to the Pharmacy Provider section of our web site, located at www.ab.bluecross.ca under the "Providers" tab.

If your pharmacy is not already connected to Alberta Blue Cross for direct billing, you can easily access the **provider registration forms** to connect to us today. If your pharmacy site is already registered with us, you can find the necessary forms to update your contact or banking information online.

You can also view **Price files**, including the *Alberta Drug Benefit List*, the *Alberta Blue Cross Drug Price List* and the *Alberta Human*

Services and Palliative Coverage Drug Benefit Supplements Drug Price Files. Price files are available in searchable Excel and PDF formats, and include valuable details such as drug product pricing and units of issue.

We have added a listing of **current Pharmacy Benefacts** as well as "frequently referenced" historical Benefacts grouped by subject matter. Other resources now available online include pharmacy provider reference guides for all regions of Canada, as well as helpful tips for successful claims adjudication.

We hope that these resources provide you with valuable information needed in support of your direct-bill claim submissions. We will continue to update this web site to further support your claims adjudication needs, so we encourage you to check in often.

If you have any comments or concerns about the pharmacy provider section of our web site, please contact us via the dropdown contact form available on our web site at https://www.ab.bluecross.ca/public_forms/provider-pharmacy-contact.php.

For questions or concerns regarding direct bill claims adjudication to Alberta Blue Cross, contact our Provider Relations contact centre toll free at 1-800-361-9632.
